Please follow the following steps for bypass the IP for Proxy

Open Control Panel - then open "Internet Options" - then Select "Connections" TAB

Step 1

	1				1	
ieral Secu	irity Privacy	Content	onnections	Programs	Advan	ced
Set	set up an Intern up.	et connectio	n, click	Set	ip	
Dial-up and	/irtual Private N	etwork settir	ngs	_		
SVPN C	onnection			Add		
				Add VF	٩N	
				Remov	/e	
Choose Set	tings if you nee	d to configur	e a proxy	Setti	ngs	
Local Area N	letwork (LAN) se	ettings				
LAN Setting Choose Se	gs do not apply ttings above for	to dial-up co dial-up setti	nnections ngs.	LAN set	tings	
		ОК	Car	ncel	Appl	y I

Open LAN settings

Step 2

Automatic con use of manual	figuration may over settings, disable a	erride man automatic c	ual settings configuratio	. To ensure the n.
Automatica	ally detect settings	12		
Use automa	atic configuration	script		
Address				
roxy server				
				a 2010 - 2010
Use a prox dial-up or V	y server for your l /PN connections).	LAN (These	e <mark>settings v</mark>	vill not apply to
Use a prox dial-up or V Address:	y server for your l /PN connections). 172.16.2.30	LAN (These	e settings v	vill not apply to Advanced
Use a prox dial-up or V Address:	y server for your /PN connections). 172.16.2.30 proxy server for	LAN (These Port: local addre	e settings v 8080 sses	vill not apply to Advanced

Click Advanced

Step 3

ervers	secongs				
	Туре	Proxy address to us	e		Port
¥.=)	HTTP:	172.16.2.30		:	8080
	Secure:	172.16.2.30]:	8080
	FTP:	172.16.2.30		:	8080
	Socks:	[:	
	Use mice	blons (;) to separate e	ntries.		0
			ОК		Cancel

Then add "10.57.2.100" here

Step 4

	Туре	Proxy address to use		Port
♥	HTTP:	172.16.2.30	:	8080
	Secure:	172.16.2.30	:	8080
	FTP:	172.16.2.30	:	8080
	Socks:		:	
Excepti	ons Do not use	e proxy server for addresses	beginning with	י:
Excepti	ons Do not use 10.57. Use semici	e proxy server for addresses 2.100 olons (;) to separate entries.	beginning with	n:
Excepti	ons Do not use 10.57 . Use semice	e proxy server for addresses 2.100 olons (;) to separate entries.		n: Cancel

Then open our link for Moodle like; 10.57.2.100

Thank you...
